

PRE-PARTICIPATION PHYSICAL EVALUATION FORM (PPE)

The IHSAA Pre-participation Physical Evaluation (PPE) is the first and most important step in providing for the well-being of Indiana's high school athletes. The form is designed to identify risk factors prior to athletic participation by way of a thorough medical history and physical examination. The IHSAA, under the guidance of the Indiana State Medical Association's Committee on Sports Medicine, requires that the PPE Form be signed by a physician (MD or DO), nurse practitioner or physician assistant holding a license to practice in the State of Indiana. In order to assure that these rigorous standards are met, both organizations endorse the following requirements for completion of the PPE Form:

1. The most current version of the IHSAA PPE Form must be used and may not be altered or modified in any manner.
2. The PPE Form must be signed by a physician (MD or DO), nurse practitioner or physician assistant only after the medical history is reviewed, the examination performed, and the PPE Form completed in its entirety. No pre-signed or pre-stamped forms will be accepted.
3. **SIGNATURES**
 - ☐ The signature must be hand-written. No signature stamps will be accepted.
 - ☐ The signature and license number must be affixed on page three (3).
 - ☐ The parent signatures must be affixed to the form on pages two (2) and five (5).
 - ☐ The student-athlete signature must be affixed to pages two (2) and five (5).
4. **Distribution**
 - ☐ History Form retained by Physician/Healthcare Provider
 - ☐ Examination Form and Consent and Release Form signed and returned to member school.

Your cooperation will help ensure the best medical screening for Indiana's high school athletes.

I have examined the above-named student and completed the preparticipation physical evaluation. The athlete does not present apparent clinical contraindications to practice and participate in the sport(s) as outlined above. A copy of the physical exam is on record in my office and can be made available to the school at the request of the parents. If conditions arise after the athlete has been cleared for participation, the physician may rescind the clearance until the problem is resolved and the potential consequences are completely explained to the athlete (and parents/guardians).

INDIVIDUAL ELIGIBILITY RULES (Grades 9 through 12)

ATTENTION ATHLETE: Your school is a member of the IHSAA and follows established rules. To be eligible to represent your school in interschool athletics, you:

1. must be a regular bona fide student in good standing in the school you represent; must have enrolled not later than the fifteenth day of the current semester.
2. must have completed 10 separate days of organized practice in said sport under the direct supervision of the high school coaching staff preceding date of participation in interschool contests. (Excluding Girls Golf – See Rule 101)
3. must have received passing grades at the end of their last grading period in school in at least seventy percent (70%) of the maximum number of full credit subjects (or the equivalent) that a student can take and must be currently enrolled in at least seventy percent (70%) of the maximum number of full credit subjects (or the equivalent) that a student can take. Semester grades take precedence.
 - ... unless you are entering the ninth grade for the first time.
 - ... unless you are transferring from a school district or territory with a corresponding bona fide move on the part of your parents.
 - ... unless you are a ward of a court; you are an orphan, you reside with a parent, your former school closed, your former school is not accredited by the state accrediting agency in the state where the school is located, your transfer was pursuant to school board mandate, you attended in error a wrong school, you transferred from a correctional school, you are emancipated, you are a foreign exchange student under an approved CSIET program. You must have been eligible from the school from which you transferred.
6. must not have been enrolled in more than eight consecutive semesters beginning with grade 9.
7. must be an amateur (have not participated under an assumed name, have not accepted money or merchandise directly or indirectly for athletic participation, have not accepted awards, gifts, or honors from colleges or their alumni, have not signed a professional contract).
8. must have had a physical examination between April 1 and your first practice and filed with your principal your completed Consent and Release Certificate.
9. must not have transferred from one school to another for athletic reasons as a result of undue influence or persuasion by any person or group.
10. must not have received in recognition of your athletic ability, any award not approved by your principal or the IHSAA.
11. must not accept awards in the form of merchandise, meals, cash, etc.
12. must not participate in an athletic contest during the IHSAA authorized contest season for that sport as an individual or on any team other than your school team. (See Rule 15-1a) (Exception for outstanding student-athlete – See Rule 15-1b)
13. must not reflect discredit upon your school nor create a disruptive influence on the discipline, good order, moral or educational environment in your school.
14. students with remaining eligibility must not participate in tryouts or demonstrations of athletic ability in that sport as a prospective post-secondary school student-athlete. Graduates should refer to college rules and regulations before participating.
15. must not participate with a student enrolled below grade 9.
16. must not, while on a grade 9 junior high team, participate with or against a student enrolled in grade 11 or 12.
17. must, if absent five or more days due to illness or injury, present to your principal a written verification from a physician licensed to practice medicine, stating you may participate again. (See Rule 3-11 and 9-14.)
18. must not participate in camps, clinics or schools during the IHSAA authorized contest season. Consult your high school principal for regulations regarding out-of-season and summer.
19. girls shall not be permitted to participate in an IHSAA tournament program for boys where there is an IHSAA tournament program for girls in that sport in which they can qualify as a girls tournament entrant.

This is only a brief summary of the eligibility rules.

You may access the IHSAA Eligibility Rules (By-Laws) at www.ihsaa.org

Concussion and Head Injury & Sudden Cardiac Arrest Form

Student and Parent/Legal Guardian Acknowledgment Form

Student Athlete's Printed Name: _____

DOB: _____

School: _____

Student ID#: _____

Due to a new Indiana law "Student Athletes: Concussion and Head Injuries" and "Sudden Cardiac Arrest" (In. Codes 20-34-7, 20-34-8, *et seq.*), all schools are required to distribute information to student athletes and their parents/legal guardians about the nature and risks of sudden cardiac arrest, concussions and head injuries, including the risks of continuing to play after suffering a concussion or head injury. The law requires the following:

- Each year, before beginning practice for an interscholastic or intramural sport, a student athlete and the student athlete's parent/legal guardian must be provided an information sheet, and both must sign and return a form acknowledging the information.
- A student athlete who is suspected of suffering from sudden cardiac arrest, a concussion or head injury in a practice or game must be removed from play at the time of the injury and may not return to play until he/she has received a written clearance from a licensed health care provider trained in the evaluation and management of concussions and head injuries.

In addition to receiving written clearance, from the licensed health care provider referenced above, a high school student athlete who is suspected of suffering from sudden cardiac arrest or a concussion and is removed from play **must obtain clearance from the SBCSC's designated medical personnel before returning to play.**

What are the risks of continuing to play after a concussion or head injury?

Continuing to play with the signs and symptoms of a concussion leaves an athlete vulnerable to greater injury. There is increased risk of significant damage from a concussion for a period of time after the concussion occurs, particularly if there athlete suffers another concussion before completely recovering from the first one (second impact syndrome). This can lead to prolonged recovery, or even to severe brain swelling with devastating and even fatal consequences.

Please read the attached Fact Sheets, read the statement below, sign where indicated, and return this form to the school's athletic department.

I am a student athlete and I have received and read the ***Heads Up- Concussion in Sports - Fact Sheet for Athletes, and the Sudden Cardiac Arrest Form***, as well as the information above. I understand the nature and risk of sudden cardiac arrest, concussions and head injuries to student athletes, including the risks of continuing to play after suffering a concussion or head injury, and the procedures that will be followed before returning to play.
